

# A MedTech Startup is looking for a CEO

## About Moon, our MedTech Startup

We are getting ready to launch and scale a MedTech startup, that has the ambition to transform the Telemedicine Industry. We are building an AI powered platform to offer a personalized care for chronic diseases by continuous support and monitoring from dedicated healthcare professionals.

Having a team of pioneers in data science and medicine on board, we are looking for a CEO, who will take the lead to scale the startup and achieve a **Series A investment**. The product has been under development since the end of 2018 and will start its commercialization at the end of 2019.

The startup is backed by Emeritus Professor Michel Pinget, founder of Center for Diabetes Studies and Anova, the French AI startup studio.

**We are looking for a CEO to start at the beginning of September 2019.**

## About the role

As the CEO of an ambitious MedTech startup you will:

Lead strategy and execute

- Define the overall strategy from launch to scale and design a corresponding roadmap
- Refine the business model and drive day-to-day operations accordingly

Build and retain a talented team

- Collaborate in building and recruiting a startup team with its own unique culture
- Empower and coordinate the team towards autonomous delivery

Manage stakeholder relation

- Regularly report updates to the Board of Directors, Ethical Committee and Professor Michel Pinget
- Understand stakeholders' desires and provide options to resolve issues, that mitigates business and governance risks

Please note that CEO position goes beyond the responsibilities listed above and the job scope is very dependent on the changing needs. The ability to "wear many hats" is the most crucial skill we are looking for.

## Who we are looking for

- Accomplished leader with minimum 5 years of experience
- Previous experience in product management or start-up leadership
- Experience in managing relations with corporate stakeholders
- Interest in MedTech
- Excellent communicator and presenter; able to articulate the company's vision; fluent in French and English
- Location flexibility: Startup will have operations in Strasbourg

## What you will get in return

We offer a compensation and a stock option plan to our CEOs at ANOVA. Interested applicants may find out the details of the project by contacting [alex@anovastudio.com](mailto:alex@anovastudio.com).

Anova - Anova is the French AI startup studio powered by Quantmetry, building AI with pioneers
